**PLEASE CALL 808-526-9019 TO PAY DIRECT WITH VISA OR MASTERCARD**

## 2013 NFPA 13: Installation of Sprinkler Systems

Get an essential grounding in the latest strategies for water-based fire protection at the interactive 2013 NFPA 13: Installation of Sprinkler Systems Seminar. When properly installed, sprinkler systems significantly reduce both damage and loss of life in building fires-and NFPA 13: Installation of Sprinkler Systems provides you with key fundamentals and the tools you need for high-quality work. Taught by sprinkler system experts, this activity-based seminar uses interactive methods to engage participants in NFPA 13 application based on hazard classification. Instruction covers compatibility requirements for nonmetallic piping; the latest on antifreeze, and heat tracing; new backflow preventer requirements; updated elevator provisions; and more. Collaborative exercises and interactive discussion improve your understanding and confidence on the job. Upon completion you should be able to:

- Select the appropriate occupancy-hazard classification for a given scenario
- Identify the appropriate occupancy classification
- Identify occupancy-hazards in a typical multi-occupancy building
- Select the appropriate system for a given scenario
- Identify specific criteria used to select an NFPA 13 compliant system
- Select the appropriate design approach for a given scenario
- Identify specific criteria used to select an NFPA 13 compliant design approach
- Determine minimum water supply
- Identify the minimum requirements for working plans
- Identify basic hydraulic principles & how those principles impact a given system

Please register early as we expect this to be a very popular seminar. Reservations and cancellations will not be accepted after that date. No-shows will be billed for full attendance. Telephone reservations will be accepted provided they are followed by written confirmation and payment

Seminar attendees will receive a copy of NFPA 101, seminar workbook, certificate of completion, and **2.1 ceu's** or **21 AIA Learning Units in the Health, Safety, Welfare category** (1.4 ceu's for the 2-day option) The registration fee does not include lunch.

**Instructors:** Robert Caputo and Samuel Dannaway

Bob Caputo is the Vice President of East Coast Fire Protection a Fire & Life Safety America Company and the President of Consolidated Fireprotection, Inc., Vista, CA. He has been a member of the fire protection community for more than 30 years, having served as a volunteer fire fighter.

He is a member of NFPA® and AFSA. He is a primary member of the NFPA 13 Technical Committee (Installation of Fire Sprinkler Systems) & the NFPA 25 Technical Committee (Inspection, Testing & Maintenance of Water-Based Fire Protection Systems) and a former member of the NFPA 20 Committee (Fire Pumps).

Sam Dannaway is a principal member of the NFPA 13 TC on Hangars and Bracing, and NFPA 101 TC's for Educational & Daycare Occupancies and Healthcare Occupancies.

**Location:** The seminar will be held at the SSDA Conference Center at 720 Iwilei Road, Suite 412. Parking is available at the Dole Cannery parking garage. There will be no validation.

**Payment: FEE MUST ACCOMPANY APPLICATION.** Payment may be made by check or money order. The applicant will receive a receipt and confirmation. Make checks payable to **Hawaii Chapter SFPE** and mail to SFPE Hawaii, c/o 501 Sumner St, Suite 421, Honolulu, HI 96817.
