

2013 NFPA 72 NATIONAL FIRE ALARM CODE

This interactive, redesigned NFPA® seminar based on the 2013 NFPA 72: National Fire Alarm and Signaling Code covers the entire life cycle of fire alarm and signaling systems. Through an activity-rich curriculum, you'll learn about initiating devices, notification appliances, control units and power supplies, circuits and pathways, emergency control functions, and more.

The 2013 NFPA 72: National Fire Alarm and Signaling Code 3-Day Seminar maximizes its impact with a learning environment that encourages discussion. Sessions are taught by fire protection professionals and code authorities who understand how and why NFPA 72 addresses changing safety dynamics. Be ready to work with the 2013 Code, including a new chapter on documentation and other major revisions. The seminar contains the following learning modules:

- The Basics
- Initiating Devices
- Notification Appliances
- Control Units and Power Supplies
- Circuits and Pathways
- Emergency Control Function Interfaces
- Off-Premises Signaling
- Documentation and Planning and Approval
- Accepting/Commissioning Fire Alarm Systems

Please register early as we expect this to be a very popular seminar. Reservations and cancellations will not be accepted after that date. No-shows will be billed for full attendance. Telephone reservations will be accepted provided they are followed by written confirmation and payment

Seminar attendees will receive a copy of NFPA 72, seminar workbook, certificate of completion, and **2.1 ceu's** or **21 AIA Learning Units in the Health, Safety, Welfare category**. The registration fee includes 8 hour parking validation and box lunch each day.
